

Letter of Invitation

Respected Sir/Madam,

E-Cell VIT is proud to announce that it is organising a National Level Technical Hackathon, **HackerTech'18** on **20 and 21 October 2018** at VIT Vellore which aims at providing a platform where students can translate their working prototype to a successful startup.

At HackerTech'18, students shall gain the scope to undergo intensive ideating and brainstorming along with designing a **feasible prototype that shall solve a given problem statement**. Under the **guidance and mentorship by distinguished guests**, ideas will give rise to ground-breaking innovations. Every prototype that stands undisputable on the grounds of **creative thinking, technical knowledge and business viability** shall receive a **funding** to help the teams move forward. The best projects shall stand a chance to receive **incubation under VIT Technology Business Incubator** along with **prize money worth 1 Lakh**.

The **applications** will be based on:

1. **ML-AI**
2. **Blockchain**
3. **Cyber security**
4. **AR – VR**
5. **Data analytics**
6. **Robotics and automation**

There is **no provision of 'Bring Your Own Problem Statement' (BYOP)** and the problem statements shall only be provided by us.

You can visit our official website for further details where students can register at www.hackertech.ecellvit.in

We promise that HackerTech'18 will not only help the students to polish their technical skills but also learn about the intricacies of entrepreneurship which shall lead to their holistic development.

Thank you.

Regards,
E-Cell VIT
