

1. How would you like to introduce yourself and do tell us about your current Position?

Hi, am Saranya, an entrepreneur by profession. I am a loving wife of Muthukumar and a responsible mother of two kids. I am the CEO of KEM AGROS, an establishment manufacturing organic fertilizers and organic pesticides.

2. What encouraged you to walk on the Entrepreneurial path? What has the journey been like?

Mr. Keshava Chandra Raj, the Founder of South India's very first micronutrient company with a wide vision to provide healthy soil, food and agriculture. I wish to carry the idea forward, that will stand the time and make a positive impact on future generations to serve the Agriculture Industry.

3. How do you think TCE has contributed to your growth and building a successful career?

TCE provided me with a structured education and helped me develop a foundation of knowledge and technical skills to help me sustain and be equipped for a competitive and a successful career.

4. Looking back, what is the one lesson/Take-away from TCE, that still helps you in everyday life?

The biggest lesson TCE has taught me is to be conscious and responsible for the decisions we make as professionals and individuals. One can learn priceless life lessons during their education at TCE, in addition to the technical skills that directs steers them in their career path. That's one big payoff you can't put a number on.

5. Any message or advice that you would like to share with the students at TCE?

Be open to new experiences: Your time at TCE is for personal growth and exploration, so be open step out of your comfort zone and try new things. This can help you develop new skills, interests, and perspectives. Learning can sometimes be stressful but it's important to take care of your mental and physical health too.

I would like to point out - Accept failures because "The one who falls and gets up is stronger than the one who never tried" ...
