to me

Dear Dr. M,

I would be very grateful if you would be willing to re- review "An Efficient Trust Estimation model for Multi-Agent Systems using Temporal Difference Learning" (#NCAA-D-15-01163R1) which you previously reviewed for Neural Computing and Applications.

I would be most grateful if you could provide your review in 30 days, in order that we can inform the authors of the review decision as soon as possible. Please feel free to consult with your colleagues if this will help the review process.

To view the manuscript, please click here: http://ncaa.edmgr.com/l.asp?i=269303&l=IUNXM7GW

To accept this review invitation, please click here: http://ncaa.edmgr.com/l.asp?i=269304&l=ZRKNBBCS

If you are willing to review the manuscript by the due date but are unable to complete your review immediately, after clicking the acceptance URL above, you will need to access the manuscript via the online system at: http://ncaa.edmgr.com/

Your username is: EM-696
Your password is: available at this

&lastname=M&email_address=memech@tce.edu

Click "Reviewer Login" to enter the system.

If you wish to decline this request, please suggest reviewers for this subject area, please click the following link: http://ncaa.edmgr.com/l.asp?i=269305&l=SS8BELTB

Appended below are the general notes for reviewers; I'm sure that these aren't really necessary to a reviewer with your experience, but I've included them for completeness.
I look forward to receiving your review comments in due course.

Thanks again for your help and co-operation, which is most appreciated.

Best regards,
John MacIntyre, PhD, BSc, FRSA, MBCS, CEng
Editor-in-Chief
