About Indian Superheroes (ISH)

Indian Superheroes is a social enterprise enabling 843+ organic farmers from the marginalized tribal and rural communities of south India to create value-additions in agricultural produce, and **sell directly to businesses and customers**, online and offline, without middlemen intervention.

On average, organic farmers of Indian Superheroes earn more than 64% above market prices – making them self-sustainable and pushing them towards being true Superheroes of this country.

A revolution by the farmers, for the country.
Enough of candlelight marches, protests and unnecessary gimmicks. Let us actually empower the farmers of this country.
