11.02.2013

It is proposed to raise awareness on the "Higher Study Opportunities in India and Abroad" amongst our students, and to enable more number of them to prepare for the competitive examinations like GRE, TOEFL, GATE, CAT, IELTS etc.

It is also intended to organize coaching classes inside the college premises for the competitive exams for higher studies.

In this connection, **TIME**, and **IMS**, the leading coaching centers for higher studies in Madurai, have come forward to **address the higher study aspirants** of every department individually, during their free hours, **without prejudice to their regular class work / department activities.**

The respective department coordinators of the Career Guidance Cell are requested to coordinate these events along with the student representatives of the Higher Studies Club, adhering to the guidelines/permission given by the Department Heads.

All Department Heads are, therefore, requested to permit the representatives of these higher study training centers to address their students for enabling more number of students to prepare for higher studies.

Report on "Mentoring Skills Program" conducted on 10.03.2018

The counselling cell of TCE had arranged a one day program on mentoring skills, which was held on 10 March 2018 at K. S. auditorium, and I am one of the participants of the program. The resource persons of the program are Prof. Guru Bharathi, Senior Consultant, MS Chella muthu Trust and Research Foundation, Madurai and Dr. Vickram Ramasubramanian, Psychotrist, Ahana Hospital Chella muthu Trust and Research Foundation, Madurai

The morning session was handled by Mr. Guru Bharathi and after his self-introduction he started off the session by asking the participants about their perception on mentoring. He stated, in tutor-ward method the focus will be mainly on academic performance, whereas in mentoring a holistic approach is used for the betterment in academics, career, health and life as a whole. He mentioned, in mentoring four factors play a major role and they are:

- a) Mentor Variable
- b) Mentee Variable
- c) Mentor-Mentee relationship
- d) Environment

Mr. Guru further added the mentor should look into the following four aspects while mentoring. They are

- a) Health Domain
- b) Academic Domain
- c) Relationship Domain
- d) Recreation Domain

He concluded that the mentor should look into the present scenario and future scenario and based on these two, a suitable realistic suggestion can be made to the mentee.

Afternoon session was handled by Dr. Vickram Ramasubramanian and he discussed mainly on health domain, in particular, on mental health and treatment. He discussed on topics such as stress, anxiety and depression. He also added stress can be a factor to trigger the gene to undergo mutation and cause cancer. He further discussed about different types of drugs and how students in adolescent age get addicted to drugs.

Overall, the program is very useful and provided insights on mentoring.
